

DESIGNER / SR. DESIGNER

HPI Architecture is an award-winning architectural firm located in Newport Beach and San Diego. We have provided over 40 years of continuous service to public and private clients in Education, and Senior Living / Healthcare sectors.

It is our goal to provide careers for our employees and foster both professional and personal growth. We offer a substantial benefits package to our employees, including health, dental, life and other insurances, a 401(k) plan, paid time off, and a pay commensurate with experience.

Job Description:

HPI is seeking a creative and collaborative candidate with minimum 8 years of architecture experience to join our firm. This position offers significant career growth opportunity. We are looking for a self-directed individual committed to high quality design and client relationships.

The candidate must possess the ability to create and implement innovative design concepts and have the ability to work well in a design team environment. The successful candidate will be responsible for developing design ideas, managing and mentoring team members, and maintaining relationships with clients and consultants. Our process requires excellent presentation, communication and technical skills. You will have the opportunity to be a strong contributor in a positive, innovative and energetic environment with a recognized firm who has been a longstanding leader in the architecture community.

Job Qualifications:

- Bachelor's or Master's Degree in Architecture (professional degree preferred)
- 8+ years of full-time work as a Designer in an architectural firm
- Excellent Design Skills and graphic sensibility
- Creative Problem-Solving Skills
- Thoughtful and clear design communication (verbal / graphic / hand sketch)
- Design Scale Versatility (ie. From planning to minor capital work, to large capital projects, and interiors)
- Excellent technical skills;
- Ability to be organized and complete multiple tasks
- Ability to direct and lead design support staff
- Software fluency: Revit, SketchUP, Adobe CC, Bluebeam, AutoCAD, MS Office, Lumion or equivalent rendering skills is a plus
